2650

Euro model

Currency counting machine

Intelligent, high quality counter with enhanced counterfeit detection

2650

Currency counting machine

The intelligent top-of-the-range **2650** desktop currency counter provides multiple detection options for maximum flexibility.

High speed, efficient processing

The **2650's** high speed and superior feed mechanism ensures the ultimate in fast, efficient and reliable banknote processing. With throughput rates from 600 to 1500 notes per minute, the **2650** handles the widest range of note qualities with ease. Compact and robust, this machine is simple to use, incorporating an automatic start facility and a clear control panel.

Highest accuracy

De La Rue Cash Systems' unique patented Double Detect counting technology provides superior accuracy regardless of note condition and requires no operator adjustment.

Intelligent

All **2650** models can count by number of notes or value. There are six pre-set batch stops - non-standard batch sizes can be selected via the numeric keypad to suit individual requirements. The chosen configuration can then be saved in memory and restored when the counter is switched on, ensuring maximum efficiency. An RS232 port is standard on all Euro models to allow data transfer to PC.

Range of options

Available with a wide choice of counterfeit and size detection options. These include:

- UV** - checks banknote paper authenticity - nine sensitivity levels.
- EMG** - examines each note for the presence and properties of magnetic ink (US\$ only).

In addition, two advanced size detection options provide a rigorous check for incorrect denominations in a bundle.

- SD** - identifies banknotes of different heights.
- 3D** - identifies banknotes of different heights or lengths.

Euro detection - De La Rue has a full range of detection options for the Euro.

- € I - UV
- € II - IRDS (Infra-Red Detection System) Twin detection system incorporating infra-red sensing and UV
- € III - SMDS (Superior Magnetic Detection System) Advanced magnetic recognition technology

De La Rue Cash Systems' counters are the direct result of 40 years' experience in designing, manufacturing and distributing world-class currency counting machines. Worldwide service and support specialists are provided through De La Rue Cash Systems' network of branch offices and authorised distributors.

Technical Specification

Document size range

100mm x 50mm to 190mm x 90mm

2650 3D

120mm x 50mm to 170mm x 90mm

2650+ (Euro models)

120mm x 50mm to 160mm x 90mm

Hopper capacity

500 notes

Stacker capacity

200 notes

Throughput speed

600/1000/1200/1500 notes per minute (pre-set)

Batching capability

Six pre-set batches (5, 10, 20, 25, 50, 100)

Variable via keypad

LCD display

Count - 5 digits/Batch - 3 digits

Power supply

98V - 264V AC, 50/60 Hz

Mean power rating

150W

Dimensions

Intelligent and accurate counting
Count by value or number of notes
Wide range of detectors
